Most Memorable Experiences:

I was honored to be part of the Consensus Committee on the Future of Medical Imaging and Radiation Therapy. This was an incredible opportunity for the major interested parties in medical imaging and radiation therapy to brainstorm ways to steer the future of our profession so that it remains strong and sustainable for many decades to come.

Closing Remarks:

I want to thank my husband, family, friends and my colleagues at the University of Cincinnati Blue Ash College for their continued support. They make it possible for me to serve my profession in ways that I never thought possible. I am truly blessed.
